

Enterprise data sourcing brief

Define the work your model needs represented. Avelence uses the requirement to source and qualify relevant companies.

Project contact: _____ Date: _____

Decision	Requirement
	Model task or evaluation goal
	Workflow sequence required
	Decision and outcome evidence
	Company / industry profile
	Systems and retained history
	Regions, languages, variation
	Intended uses and required rights
	Scope exclusions and constraints
	First evaluation deliverable
	Acceptance and commercial parameters

Minimum evidence: _____

Known constraints: _____

Keep proprietary model details for the appropriate discussion. This brief describes a sourcing requirement, not a request to transfer company records.
